Premium Single-Use Recyclable Vitreoretinal Instruments

**HASA OPTIX**  
Belgium

## AVAILABILITY OF PRODUCTS

This catalogue may contain information on worldwide products and services, not all of which are available in every country. A reference to any product in this catalog does not imply that such product or service is or will be available in your location. Any product or service referred to in this catalog may be subject to different regulatory requirements depending on the country of use. Contact your local HASA OPTIX representative to learn more about our products and services in your region.

## GENERAL INFORMATION AND IP PROTECTION

All original illustrations and text in this publication are fully protected by copyright, no part of it may be reproduced in any form without written permission by publisher. Size specifications are stated as accurately as possible. Tip drawings are enlarged to show tip detail. Surgical instruments shown in this catalog are made of stainless steel, unless otherwise indicated.

HASA OPTIX  
Belgium

# Build your own instrument sets for **VR** surgeries

## SIMPLIFY

Reduced number of SKUs which contributes to a better work environment for all stakeholders.

## PREMIUM QUALITY

Premium quality single-use recyclable instruments with the same look and feel as reusable instruments.

## COST CONTROL

We offer integrated solutions to allow the precise calculation of surgery costs, unlike with reusable instruments.

## ENVIRONMENTALLY FRIENDLY

Instrument sets are presented in a paper pouch, avoiding heavy plastic inserts.

## CIRCULAR ECONOMY

The stainless steel our instruments are made of can have a second life as a non-medical object.

At HASA OPTIX, we have decided to create a fully integrated re-use circle so that the stainless steel our instruments are made of can have a second life in other medical objects.

# VR FORCEPS

## VR End-Gripping Forceps Round

Ref	Size
556039	23G
656039	25G
856039	27G
